Master Thesis

Controlling Selectivity of Electrochemical Sensors through Neutral Polymers

by Yann Zosso

Email: yann.zosso@epfl.ch

Supervisors:
Stanford: Prof. Bao & Dr. Ines Weber
EPFL: Prof. Lacour & Prof. Stellacci

Examiner:
Stanford: Prof. Cargnello

Contributions

Y. Zosso is the main author of this work. I. Weber initiated the project and provided close supervision throughout its development. A. Dusselberg contributed feedback and provided selected data. Z. Bao offered valuable advice, supervised the project, and gave regular feedback during biweekly meetings. S. Lacour and F. Stellacci provided insightful comments during both the midterm and final presentations.

Data and Code Availability

The codes and data used in this work are available from the main author upon request.
